**#25700 EMT™ Gel - 1 oz. Tube**  
**#25705 EMT™ Spray- 1 oz. (not shown)**  
 EMT™ Gel is a scientific breakthrough in wound care technology. It is a very versatile and unique first aid and wound care product because of the collagen protein it contains. EMT™ Gel helps to reduce bleeding and promotes rapid healing because it provides collagen directly to the wound and helps provide the optimum environment for healing to occur.  
 EMT™ Gel is a product that every animal owner should keep on hand at home and in the field because you never know when an injury might occur.
